The fence should start 2 ft behind the front of your house and must have at least one access gate in case of emergency. If you are building a 6ft privacy fence you must start your fence 10ft away from the street. It is your responsibility to know the Metro Code on fence building. The Board suggests you get a city surveyor to mark the boundaries of your yard. We are asking that all fences be made out of wood (neutral wood tones) or vinyl (white).

Please draw an approximation of where your fence will be built on the sketch above and submit this drawing with your information on the reverse side.

The Board is not liable for any damage due to construction of this fence.
